

Lake Jackson Aquatic Preserve

Earth's Evolving Nitrogen Cycle

When: February 19th, 2019 at 7 p.m.

Where: Lake Jackson Community Center
3840 N. Monroe Street

How: For more information, please contact Sherry Carpenter at Sherry.Carpenter@floridadep.gov.

Join Jeff Chanton, an Earth, Ocean and Atmospheric professor from Florida State University, to discuss Earth's evolving nitrogen cycle: from farms to lakes. Mr. Chanton will explain how we have developed fertilizers, along with the history and cycling on Nitrogen on Earth.
